

Rag Rolling

You will need:

- *A rag**
- *Two different coloured paints (one darker than the other)**
- *A board for painting on**
- *A paint brush**
- *Two containers to hold paint**

Apply a thin layer of paint to the board using your paint brush and wait for it to dry.

Once dry dip your cloth into the second colour, making sure it is not too wet.

Using your rag, roll across the board to create patterns as you roll, work in lines for the best results.

Practising hand skills:

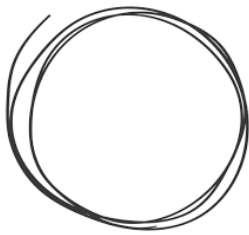

You will need:

*A paint brush

*A long piece of card (a cardboard box)

*Water based paint

Draw a large circle onto a piece of card

Once drawn apply the paint to the paint brush so it is wet but not dripping

Using the paint brush cut into the line of the circle from the outside, do not go over the line.

This is an excellent way of practising your hand skills for cutting in different surfaces.
